

30 Nov 2014: Preached by Dr Jose Lagapa.

Topic: **Will this world come to an end?**

Scripture Text: 2 Peter 3: 9-10

1. Many people had predicted dates in the past that the world would end but they were not fulfilled. These are false prophecies. Yes, the Bible tells us the world will come to an end to be destroyed by fire one day but no one will know the exact date. Only God knows when the day will be.
2. There will be many scoffers and mockers of God's Word to say it will not happen. God had sent His judgment in the past with a global flood to destroy this world for their wickedness.
3. We must not be ignorant of the future judgment by God. God is not bounded by time. It may have been 2000 years ago since Peter wrote of the judgment by God to come.
4. The Lord Jesus Christ will come again as the Judge. If we have not believed in Him, then it will be too late. One day the world will be burnt up and all elements shall melt away. Do not set your affections on this earth. Only trust in the Lord Jesus Christ. Only Heaven is the eternal Home that will not perish.
