

30 April 2017: Preached by Preacher Andrew Koh

Topic: How should a Believer Pray for Healing?

Scripture text: Isaiah 38: 3,9-20

1. Christians will fall sick living on this earth. Our response ought to be different from the people of the world who may regard sickness as an unfortunate event in their lives or just want healing to get rid of death.

2. What should a Christian do when he falls sick?

Hezekiah was sick unto death. He prayed to the Lord and walked pleasing to the Lord. It is important to pray to the Lord when we are sick and examine our hearts before the Lord to see any sin in us. We must not forget that we are still a child of God in sickness and God remembers us.

3. How should a Christian regard sickness?

A Christian should submit to God's will in sickness, and not be angry against God for it.

A Christian should understand that God gives the sickness with a purpose even if it means sufferings and pain through it. Our faith in God ought to be strengthened through the sickness.

A Christian is to glorify God through the sickness and bear a good testimony.

4. Why should a Christian be healed by God?

God will be glorified through the healing and He must be acknowledged.

Others will praise God from our lives when we are healed to walk in the will of God.

Christians will have more opportunity to serve the Lord.
