Speaker: Rev Quek

Topic: A Study of 2 Timothy 4: How Are You Fighting?

Scripture text: 2 Tim 4:7

1. In Singapore, we do not need to fight for food and shelter, we have more than we need. However, some would fight to climb up the corporate ladder or fight to have more possessions. We have to ask ourselves, what are we fighting for? Is it worth it? We must fight the right battle. The right battle is the fight for Christ, not for ourselves. This is a good fight. It means fighting for our holy witness. It is a fight with eternal significance. We should strive to bear a good testimony for Christ.

2. We must not just fight the right battle; we must fight to the end. The fight must be completed. This means protecting our holy witness all the way, not just at the beginning. Run this race well for time wasted will not return. We should not give up but persevere to the end. This means not letting our guard down.

3. There is true victory in this fight. True victory is when we keep the faith until the end. It means not compromising but holding on to the faith until the end. We have victory in Christ and we must finish the fight in victory.
