Speaker: Pastor Clement Chew

Topic: Studies in Revelation - International Woe

Text: Revelation 8:7-13

1. This COVID-19 pandemic we are currently experiencing is worldwide and no country is spared. This sort of worldwide catastrophe had already occurred right at the start in Genesis through the global flood. Such global catastrophe will happen again during the final judgment at Christ's second coming where He will punish the wicked ones.
2. When the trumpet sounds, there will first be hail and fire coming down from the sky. Vegetation will be destroyed, affecting a third of the food supply. Next, a burning mountain will be cast into the sea, affecting a third of the water supply. Thirdly, a great star called Wormwood will fall into the rivers, causing the death of men. Later, the sun, moon and stars will be altered, such that a third of the Earth will be in darkness and coldness. There will be extreme terror among all that are alive.
3. The reason why only one third of the world will be affected is because God is still giving a chance for the people to repent before the final destruction comes. For those who have not believed in Jesus, quickly come and trust in Him. For those who have already professed to believe in Jesus, don't try to store up material possessions because it will all pass away one day.

Double up in our efforts to spread the Good News of Salvation in Jesus Christ!
